BRIDGEPORT TRANSITION FITTINGS

BRINGING INNOVATION TO THE JOB SITE.

Bridgeport’s 5157-DC is a duplex MC to compression 3/4” EMT transition coupling that is ideal for government and school projects requiring the use of compression style fittings.

Fittings that solve problems for contractors.
Our extensive line of transition fittings are designed to solve common problems that contractors run into on the job site, like coupling together dissimilar systems. In their broadest application, transition fittings convert two different types of raceway while maintaining the appropriate physical strength and electrical continuity as required by the National Electrical Code.

Bridgeport understands what contractors need to safely and quickly transition between systems with uncompromised code compliance. Our expertly designed, agency listed products allow you to do this faster and easier than ever before.

NEW FROM BRIDGEPORT

Mighty-Merge® 4357-NM
Multi-Port Nonmetallic Cable to EMT Transition Coupling

The 4357-NM transitions multiple nonmetallic cables into 3/4” EMT. Simply squeeze the tabs to install or remove the cables. They’re perfect for prefabrication of bundles of nonmetallic cable.

Cable Fill:
One cable per port – 14/2 to 10/3
Two cables per port – 14/2, 12/2, 10/2
Patent Pending.
cETLus Listed
Liquid Tight to Rigid Transition Couplings

Used to join metallic to rigid / IMC. Concrete-tight. UL listed “Raintight”. cULus File No. E9391.

Mighty-Merge® Multi-Port Transition Couplings

Used to join 14/2 to 10/3 armored or metal clad cable or 3/8” flexible metal conduit to EMT. A labor savings, compared to the traditional junction box installation. Ensure that cables are inserted such that the cable armor is visible in the inspection holes. The 4156 and 4157 are two port designs. The 4357 is a three port design and the 4457 is four port. The 5157 is a two port compression design ideal for government and school construction requiring compression type fittings. The 4357-NM is a three port coupling used to transition multiple nonmetallic cable to 3/4” EMT. Patented and Patents Pending.
